# ABOUT US

## INTRODUCTION

Established in 1974 CET has been developing more and more and affirming its position in the field of providing industrial machines and equipment.

CET prides itself in providing best services and equipment in a professional manner, specializing in providing prestigious products exclusively authorized by well known, long time manufactures in Europe and in the world with the best warranty and technical support.

## OUR MISSION, VISION

To continually strive for customer satisfaction brought about by being a world class supplier of mechanical and electrical components for use in food and beverage as well as packaging industries, by offering technical assistance based on experience and know how, and by developing innovative solutions that both enhance the customers' business and our own.

## Mission & Vision

## PRODUCTS AND SERVICES

CET Industrial has been affirming its position as a professional supplier of conveyor products, spare parts for filling machines, automatic control equipment's, pneumatics, filters, and also prestigious technical service providers in the field of automation and system inspection in Eastern and central Africa.

CET industrial has constantly improved and diversified its products in the following sectors;

- ❖ Electronics
- ❖ Packaging
- ❖ Sugar processing
- ❖ Food processing
- ❖ Beverage processing

## BUSINESS CAPACITY

We believe in saving both time and cost for our customers by constantly improving and trying to put forward the best equipment and solutions to satisfy the requirements of our customers.

CET employees are trained regularly and methodically by experts which enables them to deliver pin point advice, designs, and solutions that meet client's requirements and expectations.

# PNEUMATIC TECHNOLOGY

We offer pneumatic fittings and accessories and guarantee value and performance over the components life, be it solenoid valves, cylinders or pressure regulators. We have parts and solutions that will cater for your needs.

# CONVEYOR TECHNOLOGY

Being sole agents for systems plast, JO and Regina. CET industrial offers a wide selection of gravity and powered conveyors to keep your system running smoothly. Our conveyor systems has the ability to accumulate ,stack, flip, rotate, push, divert and index your products between manufacturing or packing process.

With an array of conveyor systems and spares parts to choose from, everything you get from CET is built with durable high quality materials to ensure your products receive the best treatment available.

CET industrial is proud to offer exceptional pricing and quality conveyor solutions to help you maximize productivity. Some of our conveyor products include;

- Pick up heads
- Pressure rollers
- Sunction cups
- Cam followers
- Bottle infeed
- Bottle discharge
- Wear strips

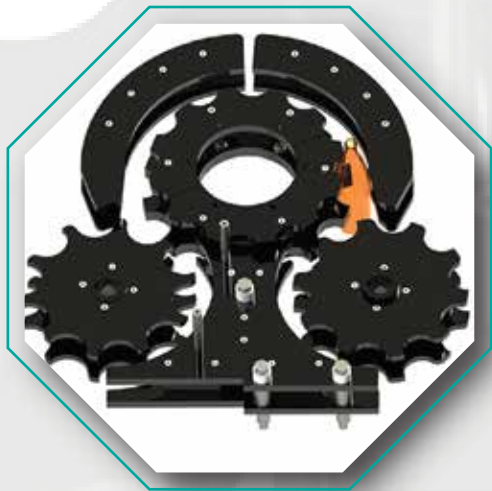

# LABELLER TECHNOLOGY

Being the sole agent of RENNER GMBH regionally, we have the capacity to deliver labelling solutions to high volume production systems. Our solution to Kenya breweries delivers 10000 bottles per hour.

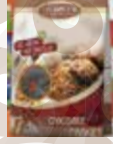

Our labelling solutions are scalable and flexible to meet your ever changing production requirements.

We also offer standby support and spares for our RENNER, KHS and Krones labellers at cost effective rates.

Our solutions guarantee efficiency, serviceability and long term support services and equipment.

# PACKAGING

Quality safety and efficiency is what matters when filling and packaging beverages and foods. The modular solution from CET put these key factors in to practice simply and effectively.

We are the premier suppliers of various labelling and packing solutions including the Shrink Sleeve. This is a tubular printed plastic label applied on the container and then heat shrunk in order to perfectly adapt to its shape and therefore becoming part of it. Shrink sleeves can be utilized for full or partial body decoration as well as tamper evident of the container, offering maximum safety and tamper proofing while being easy to remove. We will ensure that.

# INSTRUMENTATION AND PROCESS CONTROL

We want to offer our clientele modern measuring instruments for pressure and temperature based on a high quality, a suitable price-service-ratio and being available in short times of delivery. At the same time, our company shall be a working and living place where our employees can fully develop their skills for the advantage of our customers.

# SENSING & FLOW PROCESS TECHNOLOGY

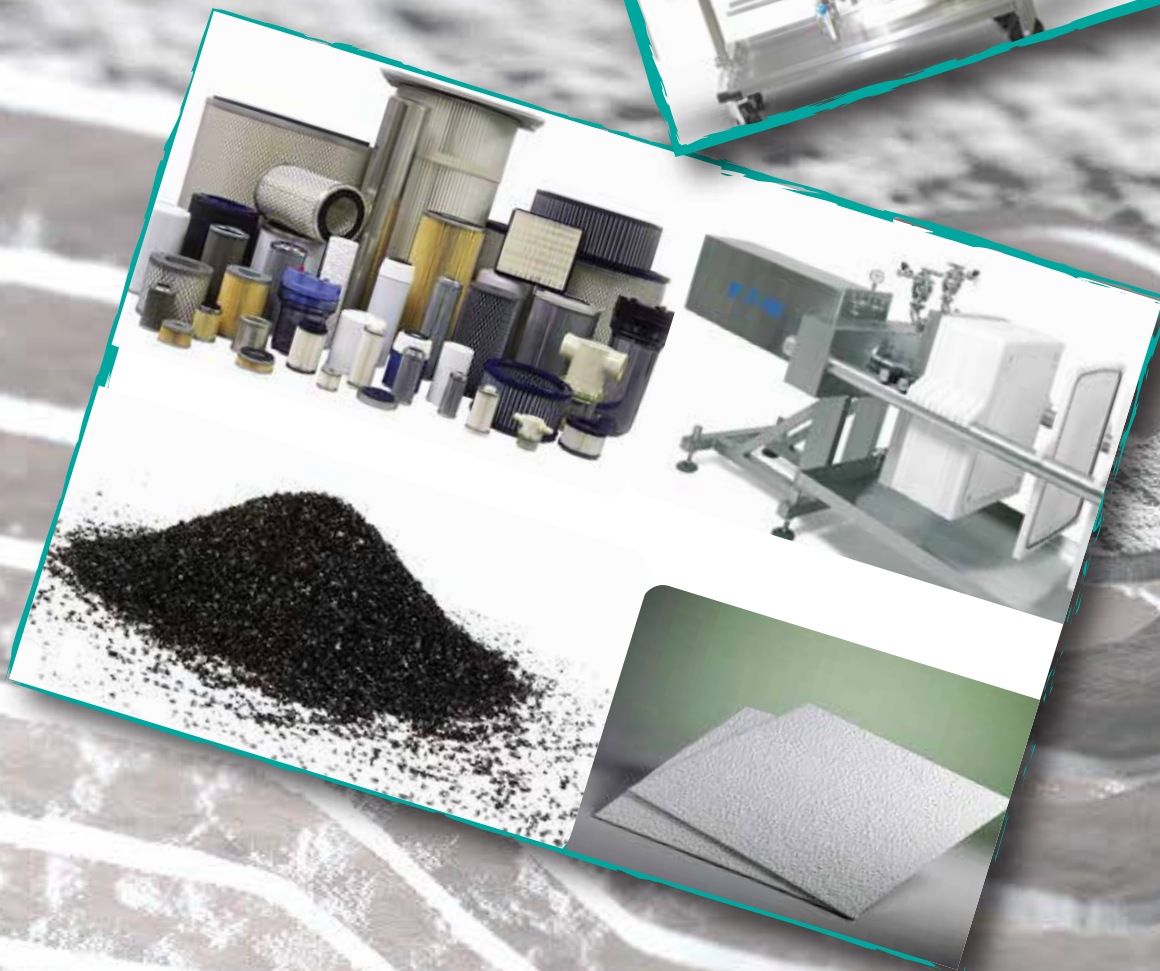

CET is one of the top suppliers of industrial sensors in the region and is highly regarded as the non-contact sensor technology leader. From factory floor automation to process control solution. CET technology can solve virtually any sensing application. Our sensors create the perfect basis for reliable and efficient control of processes and for protecting people from accidents.

# FILTRATION SYSTEMS

We are regional technology leader in depth filtration of valuable liquids. Our focus is to help our customers to optimize their filtration and treatment process. With our filters, you can produce better, safer and cleaner liquids for human needs. We are a flexible and reliable partner that is easy to do business with. Our continuous innovations provide superior value for our customers. We sell not just products but smart micro filtration solutions that help to improve people's quality of life.

# PUMPS, MOTORS, VALVES

We are market leaders in hygienic valves CET products have been designed to meet customer's priorities of problem, free product flow, safe separation of fluids and ease of maintenance and cleaning.

CET offers a comprehensive range sanitary values, including butterfly, single seat and double seat valves. Additionally we offer regulating check, constant pressure and inline pressure relief valve widely used in the brewing, beverage and dairy industries. CET guarantees you, pumps and monitors with high operational reliability and low maintenance operation at a competitive price.

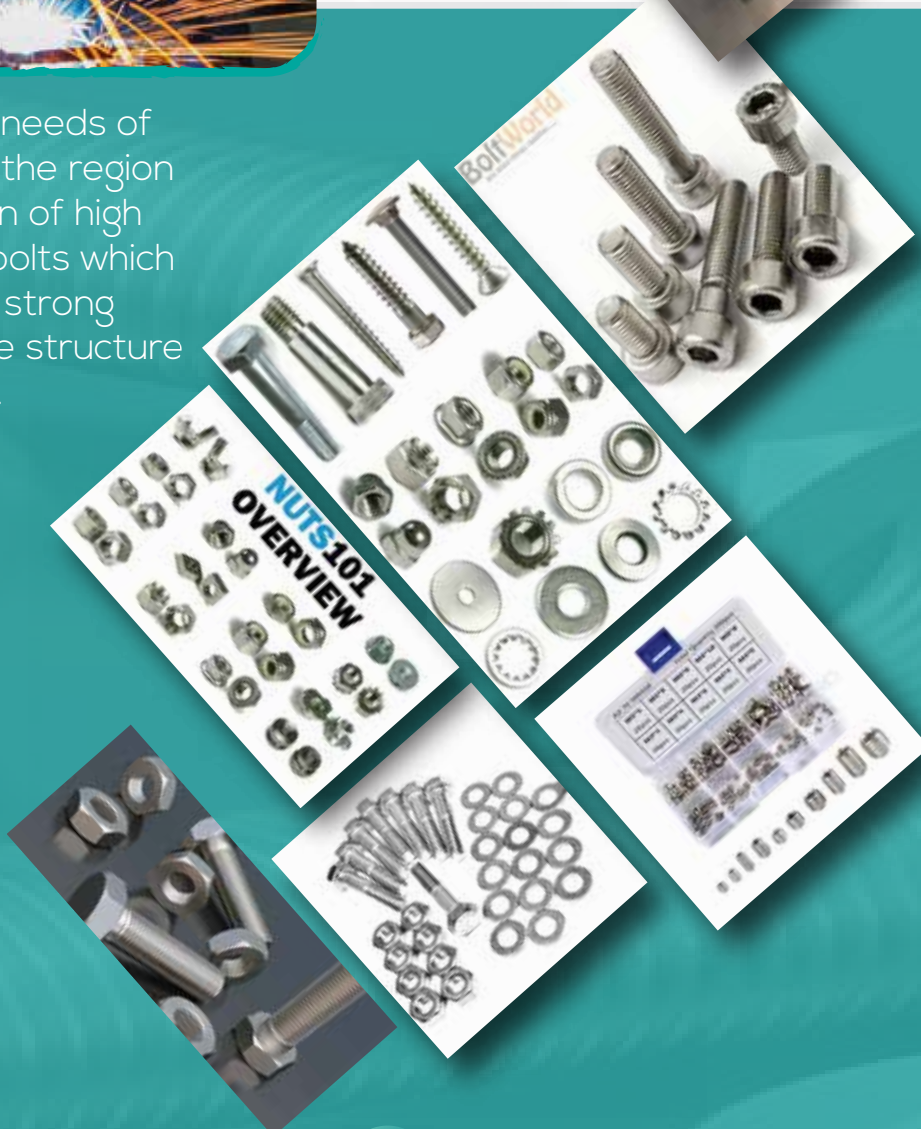

# WORKSHOP,NUTS , BOLTS & VALVES

We are a modern and professional engineering company with extensive expertise on fabrication, auto mechanical engineering and general mechanical engineering. We as well have a team of experienced engineers and serviced personnel who are integral part of our current operations.

We cater for the needs of industries across the region through provision of high quality nuts and bolts which we prove to be a strong foundation for the structure you want to build.
